Paper Dated: July 12, 2005

Attorney Docket No. 4623-045154

This application is the United States national phase of PCT Application No.

PCT/AU2003/000288, filed April 7, 2005. The references cited on Form PTO/SB/08A were

identified in the International Search Report (ISR) for the underlying PCT application. A copy

of the ISR is not enclosed because the Notification of Acceptance of Application Under 35

U.S.C. 371 and 37 CFR 1.495, dated May 18, 2005, indicates that the ISR was received by the

United States Patent and Trademark Office.

In the International Preliminary Examination Report (IPER), the International

Preliminary Examination Authority has indicated that PCT claims 1-50, which correspond to

claims 1-50 in the current application are novel and have an inventive step and industrial

applicability. It is believed that all of claims 1-50 are patentable over the prior art and in

condition for allowance. A copy of the IPER is enclosed for the Examiner's convenience.

Pursuant to 37 C.F.R. § 1.97(b)(3), no fee is believed to be due for the filing of

this Information Disclosure Statement as it is being submitted before the mailing date of a first

Office Action on the merits. Nevertheless, the Commissioner for Patents is hereby authorized

to charge any additional fees which may be required to Deposit Account No. 23-0650. The

Bv

original and two copies of this Information Disclosure Statement are enclosed.

Respectfully submitted,
